has been overlooked in computing the political complexion of the next senate is the admission of Utah, with two senators. The act of the last session of congress admitting Utah provides that in March, 1895, the constitutional convention shall be held. On the first Tuesday after the first Monday in November of that year the constitution is to be submitted to the people and, if ratified and found by the president to be in accordance with the act he will issue a proclamation admitting it as a state. The act also United States senators by the direct provides that a representative to the vote of the people." Fifty-fourth congress shall be elected at the same time the vote is taken upon the constitution; also that state It Is Safely Republican on Joint Ballot officers and a legislature shall be chosen, and that if the constitution is ratified the legislature shall immediately meet and elect two United States senators.

As there is about a month from the time the election is held until congress meets, there will be ample time to have all the formalities complied with and Utah proclaimed a state in time for its senators and representa-tives to participate in the organiza-tion of the next congress. This would make in all ninety senutors and, as the next senate now stands, the politics of the Utah senators would cut

Bills have already passed the house for the admission of both of these territories. The senate committee on territories has reported them favorably to the senate and they are now on the calendar. Senators of both parties have been urging their passage and it is more than likely that neither party would oppose them because of the effect it would have upon the elections, as the people are anxious for admission and plurality. would resent opposition by any party to that end. It is, therefore, quite likely that the battle for the control of the senate will yet be fought out in Utah, New Mexico and Arizona next year. The admission of these new states would make a total of to control would need forty-eight for a majority. With the vice president, PLYNN'S PLURALITY IN OKLAHOMA. the Democrats could control the senate with forty-seven senators.

about \$200. During the robbery a painter named W. E. Melton, supposed to be from Paris, Texas, who was in a room adjoining the store, hearing the noise, stepped to the door to ascertain what was going on. One of the robbers, seeing his head and thinking that Meiton was preparing to shoot, turned his Winchester, took deliberate aim and shot Meiton in the head, killing him instantly. The robbers then mounted and rode out about a mile, where they stopped and for some minutes watched the excited inhabitants. then mounting they started in an easterly direction. When out about four miles from town they met an old lady who recognized them as Cherokee Bill and Jim French, two of the worst men in the Bill Cook gang. Cherokee Bill dismounted and made her promise that she would not reveal their identity upon pain of death, but as soon as she reached town she gave them away. This explodes the re-ports that the marshals have the en-tire gang of Cook outlaws surrounded near Muskogee, there being no doubt of the identity of these two, as the old lady has known them both from childhood. TALK OF MORE BONDS.

An Intimation From New York of An-

other \$50,000,000 lasue. New York, Nov. 10. - After the

close of business yesterday it was announced that the government will ask the bankers for another loan of \$50,000,000. Gold bonds for that amount bearing 5 per cent interest will be issued within a few days at a price which will net investors about 3 per cent annually.

Assistant Secretary of the Treasury Curtis has been in this city for several days and has had conferences with the presidents of national banks and trust companies. One of these bank presidents said: "Yes, there will be an issue of bonds shortly. Probably within the next week or two Secretary Carlisle will call for invest-ors. President Cleveland and the secretary have determined that the gold reserve shall not be further depleted. If the people do not take all the bonds, as it is probable they will not, the bankers who floated the last issue will subscribe. As far as it is known in this city, the exact amount of the issue has not yet been determined. The issue will undoubtedly reach \$50,000,000. It has not yet been decided whether a syndicate will be formed to take these bonds or not. That, also, will depend upon the action of the autorities at

Give It a Sharp Stimulus. NEW YORK, Nov. 10 -R. G. Dun & Do.'s Weekly Review of Trade says: Business has been waiting the greater part of the past week and the elections are expected to give it a right or wrong in expecting better things, the fact that they expect them does not tend to make things better.

In the speculative markets there has been scarcely any movement and nothing favorable to holders. Wheat is two cents higher, but with receipts of only 3,545,032 bushels, against 8,593,477 the same week last year, there is little encouragement, because stocks in sight are far beyond Wagoner, Ind. Cotton has declined 1/4 to 5% cents, which is again the lowest price ever recorded and appears to mean a defi-nite decrease in production here-after, as in most of the Southern states the prices now realized are not remunerative. For the present the stocks here and abroad are large enough to kill any speculation.

Scarcely anything is doing in woolen goods for spring delivery, and the demand for fall and winter goods has nearly disappeared. In general it is believed the spring orders thus far are not more than half the usual
